

# PC-1210

## FOOD GRADE DEFOAMER

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

PC-1210 is a 10% silicone-based defoamer and all its components are in compliance with FDA regulation 21 CFR 173.340 (a)(2). Consult this regulation for usage limitations. All components of this product are manufactured under Good Manufacturing Practices. PC-1210 is not permitted in milk. Consideration for other FDA permitted uses would require further evaluation.

**Recommended First Aid:** **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **IF ON SKIN (or hair):** Remove contaminated clothing. Rinse skin thoroughly with plenty of water. **IF SWALLOWED:** Do not induce vomiting. Have a conscious victim drink water to dilute. Never give anything by mouth to an unconscious person. **IF INHALED:** Remove to fresh air.

**DIRECTIONS FOR USE:** Concentrations ranging from 10 to 100 ppm of PC-1210 have proved to be effective in most applications. PC-1210 can be added directly or prediluted with water for maximum efficiency. Prediluted material should be stored for no longer than 8 hours. See table below:

**Storage:** Keep container closed. Store in a cool, dry place. Protect from freezing. Shelf life: 1 year from the date of manufacture if stored between 41°F and 95°F.

Target ppm	Gallons to be treated	PC-1210 to add (fluid ounces)
10	1,000	1.3
50	1,000	6.4
100	1,000	12.8
