HEAVY-DUTY CIP CLEANER

KC-555 WB is a non-foaming liquid alkaline cleaner designed to be used as a heavy-duty CIP cleaner and features outstanding performance on hard to remove fat soils, especially suited for rendering operations. KC-555 WB is formulated for areas where there is a potential for freezing temperatures at the plant location, transfer lines, or during transit. KC-555 WB may be used in all departments of meat, poultry, and general food processing plants.

DIRECTIONS FOR USE: Use in any circulation cleaning apparatus or system. Dilution rate varies with length of exposure time to contact surfaces, but usually ½ to 12 oz. per gallon of hot water (100-140°F). Apply to surfaces such as: stainless steel, black iron, concrete, glass, and plastic. Contact your Safe Foods Chemical Innovations representative for detailed use instructions.
